Chairperson of the meeting: Shigeo Ohta as the oldest person

1. Agreement on the foundation of International Society for Hydrogen Medicine and Biology (ISHMB)

The attendees agreed on the following decisions.

- (1) The society name: International Society for Hydrogen Medicine and Biology, (abbreviated by ISHMB).
- (2) The society motive: Science is border-less.
- (3) The society objects:
 - 1, to promote the development of hydrogen medical and biological research;
 - 2, to promote the development of hydrogen health and green agriculture;
 - 3, to promote the international academic exchange of experts and scholars;
 - 4, to have the annual International Conference for academic exchange;
 - 5, to organize international collaborations;
 - 6, to bridge from academia to industrial.
- (4) The organization of the society:

The society is organized by domestic societies as a federation. Before the foundation of a domestic society, individual researchers are encouraged to join the international society. The society makes an effort to found domestic societies. As an option, an individual researcher who is a non-member of the domestic society would be acceptable.

(5) The official members are following;

Shigeo Ohta; Honorary President.

Xuejun Sun; Honorary President.

Shucun Qin; President.

Kyu Jae Lee; Vice President

Mami Noda; Vice President

Guohua Song; Secretary General

Dongcan Jin; Vice Secretary General

Gae Ho Lee; Senior adviser

(Jianming Cai; Senior adviser) Under consideration

Tyler LeBaron; Adviser

To receive financial supports, several Cooperation Members will soon be selected from Industrials.

(6) Registration of the society

It is suggested to register in Hong Kong under the law of Hong Kong, set a registration office in Hong Kong, China, and set an executive office in Qilu Medical University, Shandong, China

(7) Center of the society

The society is conducted at Qilu Medical University with a strong support from Qilu Medical University [former Taishan Medical University]

(8) The society home-page

It's important to construct the homepage in English (it is Tyler's homework). and then others can create the homepage in Chinese, Japanese, and Korean language based on English version.

(9) Logo mark

The logo mark will be soon determined.

(10) Annual conference of the society

At least for three years, the society holds the annual conference as a joint conference with an annual conference of a domestic society.

In 2018, in China

In 2019, in Korea

In 2020, in Japan

(11) The other details of the society

All the details including conferences, rules, roles of the officers, and board members etc. will be determined step by step within three years.

(12) It is encouraged to perform collaborated large scale clinical trials on some diseases, like dementia.

(13) Foundation of the international society

We declare the foundation of ISHMB on December 6, 2017.

The all participants agreed on the above content by discussion and agreed to pass through the form of applause.
